

I am a resident of Gilroy, CA writing to you concerning your new broadcasting service, Low Power FM (LPFM). Our community depends on K-LOVE for encouraging, positive, commercial-free, music and news. For this reason K-LOVE stations are a benefit to our community and many, many others. In our area, and I assume in most other areas, there are no alternative stations offering this type of commercial-free programming. In an era when the FCC is attempting to "clean up" the airwaves, it would behoove the FCC to ensure the any LPFM stations do not interrupt any K-LOVE broadcasting. Thank you for your time and consideration.
